

12 **STOP SIGN DETAIL**  
C-501 SCALE: NOT TO SCALE

THE ABOVE "VIEW-LABEL-BLOCK" IS FROM AUTOCAD C3D 2015  
WHEN I INSERT IT FROM THE SHEET SET MANAGER, IT DISPLAYS CORRECTLY.  
I HAVE BEEN USING SHEET SET MANAGER FOR SEVERAL VERSION OF AUTOCAD CIVIL  
3D AND I HAVE NEVER HAD OR ENCOUNTERED ANY PROBLEMS OR ISSUES WITH THE  
"PLACE VIEW LABEL BLOCK" COMMAND FROM THE SHEET VIEW TAB OF SHEET SET  
MANAGER UNTIL NOW, SEE BELOW.

THE BELOW "VIEW LABEL BLOCK" IS FROM AUTOCAD C3D 2016.  
EVERY TIME I INSERT THE "PLACE VIEW LABEL BLOCK" FROM THE SHEETS VIEW TAB  
OF SHEET SET MANAGER I DO NOT GET THE NAMED VIEW, BUT INSTEAD I GET THE  
DEFAULT VALUE OF "View Title", BUT I DO GET THE CORRECT DETAIL NUMBER AND  
THE CORRECT SHEET NUMBER AS SHOWN IN MY EXAMPLE.  
ANY IDEAS AS TO WHY IT IS BEING DISPLAY AS SHOWN?

11 **ViewTitle**  
C-501 SCALE: NOT TO SCALE
